7th August 2009

X-Tech Drafting has been providing quality shop drawings for our company since January 2004.

Over that time X-Tech drafting has proven to be confident and competent in its quality of workmanship leading to clear site erection plans and shop drawings.

We find their communication with ourselves and our clients to be courteous and respectful and are often getting follow up projects due to their ability to effectively communicate problem areas and liaise with other trades and disciplines.

X-Tech drafting take our projects and run with them autonomously leaving us no need to worry and never being tardy or late with communication and or deliverables.

Projects X-Tech Drafting have been involved in the past are: South Melbourne Lifestyle Centre, Alfred Hospital Stage 2, 115 Batman Street, Karingal Entertainment Hub and Sacred Heart College to name a few.

We look forward and hope to work with X-Tech Drafting on many future projects.

If you require any further information, please do not hesitate to contact myself on the above number.

Regards,

Darryl Tomlins
Senior Estimator
