

21st September 2004

Job No: M031010

Xtech Drafting
55 Patterson Street
Middle Park VIC 3206

Attention: Alistair Moody

Dear Mr. Moody

Steelwork Shop Drawings

Xtech Drafting prepared the structural steelwork shop drawings for the 4,200 square metre extension to the Keilor Downs Shopping Centre.

As consulting structural and civil engineers on the project, we found the shop drawings prepared by Xtech Drafting clear and accurate.

Xtech Drafting was professional to deal with and very thorough in their work. We were able to accommodate detailing revisions suggested by Xtech Drafting to produce an efficiently detailed structure.

On site, the builder commented on how well the steelwork went together.

We look forward to dealing with Xtech Drafting on future projects.

Yours faithfully

Andrew Fawcett MIEAust CPEng EC-18865
Senior Structural Engineer
